

**BLUECOL®**

**Aero-Flex™**

**wiper blades**

A close-up, low-angle shot of a wiper blade on a car windshield. The blade is dark and appears to be in the process of wiping water. The windshield is covered in numerous water droplets of varying sizes, some in sharp focus and others blurred. The background shows a blue sky with white clouds. The overall color palette is dominated by blues and whites.

**BLUECOL**®

Changing your wiper blades has never been easier with the Bluecol flexible wiper blade system.

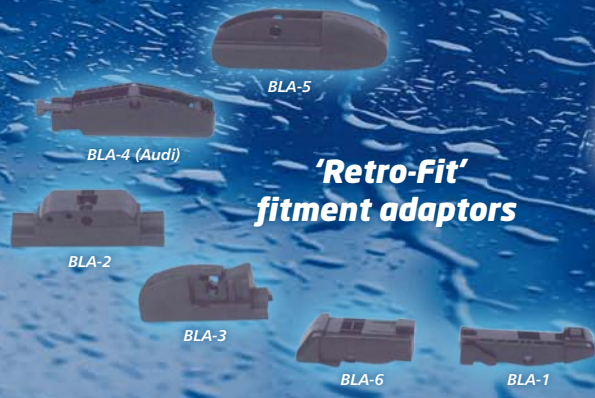

Aero-Flex wiper blades can be used as a direct replacement for the original wiper and the innovative 'retro-fit' fitment adaptors are suitable for use on over 96% of vehicles on the road.

A comprehensive range of Bluecol traditional bridge wiper blades are also available to order.

**Aero-Flex**™  
 wiper blades

The aerodynamically designed, flexible Bluecol wiper blades are specifically designed to follow the curved shape of vehicle windscreens. The advanced wiper blade technology, combined with low profile design, offers increased windscreen contact compared to traditional wiper blades.

- New superior performance, aero-dynamic, flexible technology.
- Increased screen contact for improved wiping.
- Direct replacement for original wiper blade.
- Reduces juddering and wiper squeak.

**'Retro-Fit'  
 fitment adaptors**

**• Easy to Fit • Curved Blade Design**

# How to use this wiper blade application guide

This Bluecol Wiper Blade guide has been compiled from vehicle manufacturer recommendations and/or additional data where available, and is up to date as far as we are aware at the time of printing. The guide is intended as a first-step source of information, which indicates both the size of the wiper blade needed and the adaptor required for that vehicle.

Although considerable care has been taken to ensure the information presented is complete and accurate, no liability, other than that which may not be excluded by law, can be accepted for damage, loss of injury caused by errors in this Wiper Blade Guide.

- 1 Find the make of the car/van - these are in alphabetical order.
- 2 Identify the model and year of registration. The list quotes both month and year of manufacture.
- 3 The guide lists sizes of wiper blades required for the drivers side, passenger side and rear window.
- 4 Cross reference the size of the wiper blade with the type of adaptor needed for your vehicle.

In case of uncertainty, always consult your vehicle handbook or dealer.
