Wonder Wheels

Wonder Wheel 1 2
 This revolutionary wheel cleaning set removes stubborn, thick film from general traffic pollution and baked on brake dust, leaving a clean and polished surface. It is designed for use on the majority of alloy and metal wheel types, as well as plastic wheel trims. Also available in a trigger. Do not use on chrome wheels.

Wonder Tyres 3 4
 Wonder Tyres produces a high quality, long lasting, polished 'wet look' effect on tyre walls. Also available in a bottle with sponge applicator.

Wonder Wheels "U" 5 6
 Wonder Wheels 'U' is an outstanding universal wheel cleaner. Not only tough on brake dust and dirt, this unique formulation gently cleans delicate surfaces like chrome, polished alloy and even damaged wheels.

Advanced
Cleaning
Technology

Instant Shine — 4

Instant Shine is both rapid and super easy in application. It not only enhances the depth of colour and produces a high quality finish, but produces an instant, durable water beading effect with minimal effort. Does not stain rubber, plastic surfaces or glass.

Ultimate Wax — 2

Ultimate Wax contains a special blend of paint conditioning minerals, silicone and natural and synthetic waxes in order to produce an effective, durable coating. Ultimate Wax protects paintwork from harsh weather conditions and road grime. Ultimate Wax is suitable for all paint finishes, even metallics and pearlescents.

Wheel Clean — 3

Wheel Clean is made up of a neutral pH formula suitable for use on most wheel types. The foaming ingredients break down dirt, grime and brake dust, making it easier to clean the wheels.

Conditioning Shampoo — 1

Conditioning Shampoo is a super quality foaming cleaner with a concentrated formula that contains added wax. It cuts through all types of dirt and grime leaving a brilliant, streak free, protective polish. Does not contain harsh salts.

Seal and Shine — 6

Seal and Shine offers a unique sealing coat that bonds to the paint surface in order to create a durable, high gloss finish. Additionally, this fabulous product renews the colour depth of the surface and produces a water beading effect that lasts for several months. It does not contain abrasive particles that can leave white marks on unpainted plastic and trims. Seal and Shine can be used on most hard surfaces, including light lenses, side and rear windows (not windscreens) and trims. Simply allow the sealant to bond to the paint surface and experience a fantastic showroom finish, wash after wash.

Rain Repellent — 5

Rain Repellent creates a super-slick, non-stick coating that allows rain to bead and run off treated glass.

ultra

Glass Cleaner ¹⁴

CarPlan Ultra Glass Cleaner Trigger is specifically designed for use on interior and exterior glass. The streak free formula removes dirt, grime, insect deposits, tobacco haze and finger marks.

Wheel Cleaner ¹⁵

CarPlan Ultra Wheel Cleaner is excellent for removing baked on brake dust, road grime and road dirt from alloy wheels and wheel trims. The powerful formula cuts through everyday dirt, leaving wheels unbelievably clean.

Insect Remover ¹⁶

CarPlan Ultra Insect Remover effectively removes dead insects, tree sap and bird lime from paintwork, glass, bumpers, grills and headlamps. It leaves a bright, streak free finish.

Multi-Purpose Car Cleaner ¹⁷

CarPlan Ultra Multi-Purpose Car Cleaner spray cleans a multitude of interior and exterior surfaces, such as interior plastic trim, windows, doorsills, headlights and many more.

Tyre Shine ¹⁸

CarPlan Ultra Tyre Shine offers an efficient way to restore the "wet look" shine to tyres whilst protecting them from general wear and tear.

Upholstery Cleaner ¹⁹

CarPlan Ultra Upholstery Cleaner effectively removes dirt from all types of car upholstery. It is safe for use on velour, vinyl and most colourfast fabrics.

Gloss Dashboard Cleaner ²⁰

CarPlan Ultra Gloss Dashboard Cleaner is an efficient and effective way to clean and shine interior plastic trim and PVC. It leaves a pleasant, fresh vanilla fragrance.

Matt Dashboard Cleaner ²¹

CarPlan Ultra Matt Dashboard Cleaner offers an efficient and effective way to clean interior plastic trim and PVC. Leaves a fresh, citrus fragrance.

Multi Purpose Spray ²²

CarPlan Ultra Multi Purpose Spray protects and lubricates all plastic, metal and rubber parts that suffer from constant friction, without cracking or splitting the rubber.

Tyre Shine ²³

CarPlan Ultra Tyre Shine provides an efficient way to restore the "wet look" shine to tyres, whilst protecting the surface from ageing.

Foam Tyre Cleaner ²⁴

CarPlan Ultra Foam Tyre Cleaner effectively cleans tyre walls of mud, dirt and road grime.

Glass Cleaner ²⁵

CarPlan Ultra Glass Cleaner Aerosol is an active foam that efficiently cleans interior and exterior glass.

INTERIOR VALETING

fresh fruit fragrances

Flash Dash ¹₂₃₄₅₆₇₈₉₁₀

Flash Dash offers a wide range of products designed for cleaning and polishing car dashboards; ideal for use on plastic, leather, rubber and synthetic surfaces. Also recommended for use on unpainted bumpers, mirror casings and trims. Contains antistatic agents and UV filters. Available as: aerosols, lotions, and impregnated sponges, in five fresh fragrances: citrus, wild fruit, orange, vanilla and green apple.

Dash Valet ¹⁸

Dashboard cleaner containing UV agents that protect against surface cracking and fading. It leaves a matt finish and a fresh citrus fragrance on the surface.

INTERIOR VALETING

Leather Valet ^{16 17 18}

This leather cream contains unique soaps that gently clean leather surfaces. The blend of oils and waxes polish and help preserve the leather. It can also be used for cleaning and protecting plastic and vinyl surfaces, leaving a satin finish.

Stain Valet ¹¹

Stain Valet is specifically designed to remove stubborn stains and dirt from textile upholstery. Rapidly soaking into stains, it removes marks such as chocolate, marker pens, sauce, juice, coffee, chewing gum, oil and petrol. It does not contain bleach and will dry without staining.

Interior Valet ^{12 13 14 15}

Interior Valet is a powerful cleaner designed for fabrics such as velour, leather and carpet upholstery. This revolutionary technology successfully neutralizes odours caused by food and tobacco, leaving a fresh citrus fragrance.

EXTERIOR VALETING

Screen Clean ①
Screen Clean contains specific agents that work quickly to dissolve grease, tobacco haze and other dirt, leaving a polished, streak free finish, both inside and outside the car. Contains anti-mist formula.

Screen Wipes ② ③
Easy to use, impregnated glass cleaning wipes. A quick and efficient method of eliminating greasy streaks, tobacco haze, finger marks and other dirt from glass screens, whilst leaving a fresh green apple fragrance.

Bug Blitz ④
Bug Blitz is an ideal product for removing dead insects, tree sap and bird lime from car paintwork, glass bumpers, grills and headlamps. It can be used prior to or between wash treatments. Simply spray the dirty area, allow the product to work upon the unwanted dirt for a couple of minutes, then wash off the surface.

In Car Odour Eliminator ⑨
In Car Odour Eliminator quickly and effectively neutralizes unpleasant odours inside the car. It is suitable to use on carpets and textile upholstery, and will leave an exciting fresh fragrance.

Screen Wash ⑥ ⑦
This highly concentrated, fragranced screen wash offers a quick and easy way of removing dirt, traffic film and insects from windscreens and headlamps. During the summer, dilute with water; 1:19 gives 20 litres of ready to use screen wash from a 1 litre bottle. Available in fresh orange and green apple fragrance.

Kleen Air ⑧
Kleen Air is an efficient air conditioning cleaner and purifier. It eliminates bacterial mould and fungi growing in vehicle air conditioning units caused by a build up of micro-organisms that cause unpleasant odours. The entire process of the cleaning treatment of the air conditioning system takes approximately 10 minutes, and will take effect immediately. It will leave a fresh citrus fragrance after use.

EXTERIOR VALETING

Tyre Slik ②

This award winning product is ideal for both polishing and preserving tyre walls. By restoring the surface to a black and glossy finish, Tyre Slik recreates the 'wet look' effect, whilst a unique formula works to preserve the rubber.

Tyre Shine ①

A foam cleaner that successfully cleans and protects tyre walls against cracking and sun fading. It effectively restores the natural black, polished look to tyres.

Wheel Slik ③ ④

Wheel cleaning product available as an aerosol and a trigger. Removes baked on brake dust, grease and other dirt built up during driving. Ideal for use on alloys, chrome wheels and plastic wheel trims.

8	CTP375	Chrome Trim Polish	375ml	5010373007716	12

Original Black ⑥

Original Black offers a quick and easy way to clean and polish plastic and rubber exterior surfaces. Ideal for use on trims, bumpers and tyre walls. Not only does Original Black leave a long lasting shine on any surface colour, but also actively protects against fading.

Black Trim Wax ⑤

Black Trim Wax is specifically designed to restore faded and discoloured, black, exterior car surfaces. The unique combination of waxes and polymer extracts restores the shine on black bumpers, trims and mirror casings.

Tar Remover ⑦

Tar Remover provides an effective way of removing unwanted substances such as tar, resin, asphalt, grease stains and insect deposits from car bodywork, wheels and chrome surfaces.

Chrome Wheel & Trim Polish ⑧

An efficient way to successfully remove rust and tarnish from chrome, stainless steel, brass, nickel, copper, aluminum and silver surfaces. Ideal for use on chrome wheels, the polish restores the original shine to the surface.

CarPlan eco car

Eco Car products contain natural plant, vegetable and fruit extracts. They are effective cleaning products that can be used on all car components, and have a greatly reduced impact on the natural environment. Eco Car products ensure an optimal biodegradability level and product packaging can be recycled.

1	ECG500	Glass Cleaner Trigger	500ml	6	5010373040256

6	ECO500	Odour Eliminator	500ml	6	5010373040287

Eco Car Polish ³

Eco Car Polish is a natural car wax that protects and polishes car paintwork. The water based formula contains natural waxes, including Carnauba and Bees Wax extracts.

Eco Car Glass Cleaner ¹

Eco Car Glass Cleaner produces a polished, streak free look, and is suitable for use on glass surfaces both inside and outside the car, in order to easily remove dirt and insect deposits. Natural alcohol (bio ethanol made from grain, sugar-beet and corn) has been combined with cleaning agents sourced from lemon, cedar tree and coconut extracts in order to produce an effective cleaner.

Eco Car Wheel Cleaner ²

Eco Car Wheel Cleaner is a high quality wheel cleaning liquid that effectively cleans all car wheel types, including chrome varieties. Natural cleaning agents such as lemon extract and natural emulsifying compounds enable the quick and easy removal of baked on brake dust.

Eco Car Shampoo ⁴

Eco Car Shampoo successfully cleans and cares for paintwork, leaving a polished and streak free finish. Its environmentally friendly ingredients include natural coconut, aloe vera and natural alcohol extracts.

Eco Car Dash Cleaner ⁵

Eco Car Dash Cleaner is an efficient and easy way of cleaning the car dashboard and other interior car surfaces. The combination of vegetable extracts with natural fragrances and non-greasy surfactants result in an effective formula that prevents quick dirt and dust build up.

Eco Car Odour Eliminator ⁶

Eco Car Odour Eliminator effectively refreshes car interiors by eliminating unpleasant odours. The naturally sourced fragrance originates from natural lemon and cedar tree extracts.

Fresh

Fresh offers a revolutionary odour eliminating technology that eradicates unpleasant odours. The range consists of natural fragrances: Cucumber & Melon, Pink Lily & Grapefruit, and Fresh Linen. Fresh is a range available in a trigger, gel pot, gel vent stick and fragranced oil diffuser.

Carb & Choke Cleaner ③

Carb and Choke Cleaner is for use in professional workshops. It removes deposits, dirt and grease from carburetors and automatic throttle bodies and is safe for use in catalytic converters. It reduces fuel consumption and maintains engine performance by reducing the chance of fuel injector nozzles clogging.

Brake Clutch & Parts Cleaner ②

Brake Clutch and Parts Cleaner is a professional workshop product that removes brake dust, grease, road grime, oil, brake fluid, fuel and all other dirt. Additionally, it helps to reduce brakes squeaking and humming.

Engine Cleaner & Degreaser ④ ⑤

Engine Cleaner and Degreaser cleans and degreases all types of engines. It is water washable resistant and suitable to use on aluminum surfaces. The unique formula is also extremely efficient for removing tar spots, cleaning brushes and floor degreasing. Available in the form of an aerosol and a liquid.

Double TT ①

Double TT deeply penetrates element connections in order to unblock considerable dirt, remove unwanted moisture, protect against rusting and remove squeaks by lubricating moving parts. Double TT not only protects moving elements, screws, cables and linkages against corrosion, but also removes pencil, gum and glue marks from most surfaces. It leaves protective anticorrosion coating and is used widely in workshops, cars, homes, gardens, service stations and garages. Silicone - Free.

Tetroseal Wax/Oil ⑥

Tetroseal is a superb blend of oils, waxes, corrosion inhibitors and dewatering agents that in turn combine to form a heavy duty rust preventative. It provides an all-round internal rust protection. Tetroseal displaces water from metal surfaces and vehicle crevices in order to form a flexible, heat resistant film than will not re-run on the inside panels. It is a silicone free product and is fully compatible with original materials used by car manufacturers.

Tetroseal Underbody Sealant ⑦

Tetroseal Underbody Sealant provides a highly viscous, bituminous coating designed for sealing and protecting car chassis and it protects against corrosion, water, salt and stones. It has a superb sound deadening ability.

Fire Putty ⁵⁻⁶

Fire Putty is an asbestos-free assembly paste specially designed for use on all exhaust joints, flues and boiler pipes exposed to high temperatures. It remains elastic, allowing for quick and easy disassembling of exhaust parts.

Exhaust Repair Bandage ³

Exhaust Repair Bandage creates a strong and effective sealing coating on large holes and cracks in exhaust systems. It protects against combustion gas leaks and mutes sound from the exhaust system.

Exhaust Repair Paste ⁴

Exhaust Repair Paste is specially designed to bridge holes and seal cracks on damaged exhausts. It hardens after the exhaust system is heated and ensures a rust free, quality repair.

Petrol Can ⁸⁻⁹⁻¹⁰

The petrol Can is made from a high density polyethylene (HDPE) that ensures maximum safety and retention of a capacity of up to 5 litres. Available in black, green and red.

Stone Chip ²

Stone Chip is a hard-hitting, flexible corrosion and chip resistant coating for lower body car panels. Excellent sound deadening qualities. Available in three colours: black, grey and white. When dry, Stone Chip can be painted on with nitro-cellulose, acrylic or synthetic paint.

Tetra Schutz ¹

Tetra Schutz is a textural, quick drying bituminous substance that provides excellent protection against corrosion and stone spray. For use on lower body car panels that require tough anticorrosion protection.

Flat Mate ⁷

Flat Mate is designed for the immediate repair of a punctured tyre. It allows the vehicle to be driven within a few minutes of repair, without replacing the wheel. 300ml can is for 155R13 size tyres, whereas bigger tyre sizes require use of a 500ml can.

PROFESSIONAL VALETING

Created, tested and approved by professional car care garages. CarPlan Professional Range includes those products necessary for taking complete and complex care of client cars. The range offers products suitable for both interior and exterior use.

Premium Wax Polish ¹⁰

Premium Wax Polish is a unique composition of gentle resin waxes and gloss enhancers. It provides long lasting protection and an excellent polish to paintwork. Quick and easy in application.

Air Freshener ²

A fast action air freshener that targets and eliminates unpleasant odours from upholstery and car interiors, leaving a fresh and pleasant fragrance. Apply with a trigger spray.

Fabric Cleaner ⁴

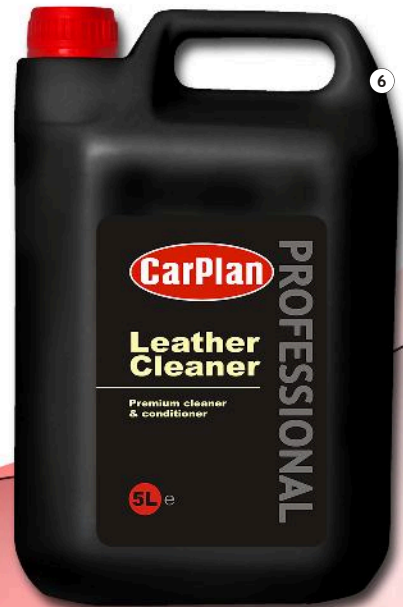

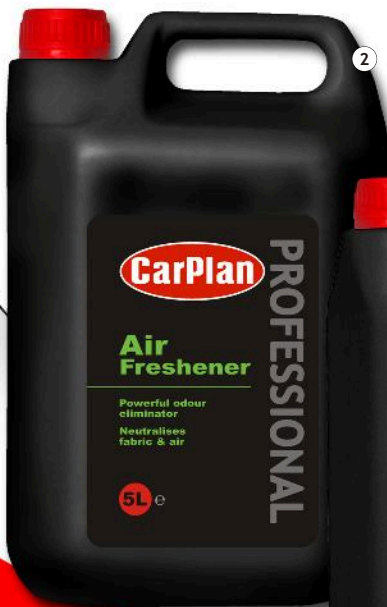

Fabric cleaner is a specifically formulated, concentrated cleaner designed for use on carpets and upholstery. It removes stubborn stains, restoring textile upholstery to a clean and fresh state, and can be diluted to work on the general build up of heavy dirt. It can be used in a carpet cleaning machine or be applied by a trigger.

Wash & Wax ⁹

An advanced car shampoo that combines both concentrated and gentle washing agents with a high quality wax in order to provide an excellent polish and streak free finish on every wash.

Leather Cleaner ⁶

A super effective and efficient leather cleaner that not only cleans but helps preserve the leather by adding a moisturizing protection treatment in one easy application, leaving a 'new leather', fresh aroma.

7

TFR 25L 7

TFR is a super strength product used in pressure washers, steam cleaners and spray arches. For use on the bodywork of all vehicles and chassis. It removes stubborn dirt, baked on dust, grease and oil. Designed for cars, vans, trucks and building machinery.

Universal Cleaner 8

Universal Cleaner is a multi-purpose product that effectively reduces cleaning time as it is designed to be used in either a concentrated or diluted state, and can be used on a wide range of surfaces and materials.

Glass Polish 5

Glass Polish is a super strength lotion that works hard to remove tobacco haze, tree sap, insect deposits and other dirt. It provides a crystal clear and quality streak free finish on both the interior and exterior of the car.

Wheel Cleaner 1

A super strong, non-acidic wheel cleaner, suitable for use on most wheel types, including chrome. Simply spray the wheel, allow the cleaner to soak into the dirt for a couple of minutes, then wash out. Wheel Cleaner removes baked on brake dust, traffic film and other dirt.

Trim, Bumper & Tyre 3

A multi-purpose, advanced product combining gloss enhancers and color back agents. It is designed to restore exterior plastic elements and tyres to a quality condition. Using the liquid product formula is easy, efficient, and results in an evenly polished surface.

3

WINTER RANGE

Blue Star De-icer ①

An efficient de-icer that offers a quick solution to removing frost and ice from glass surfaces.

down to
-36°C

Sub Zero / Bluecol De-icer ③ ④

Sub Zero / Bluecol De-icer is a glass de-icer designed to work on severe temperatures, right down to -36°C.

Power Start ⑥

Power Start is a specially formulated product that helps start cold engines and weak batteries, even in harsh weather conditions, such as persistent frost. It helps protect engine parts against excessive damage and prevents deterioration in cold climate conditions whilst lubricating the upper cylinder ring.

Ignition Sealer ⑦

Ignition Sealer creates a clear coat of durable plastic insulation that seals voltage nets, distributor caps on ignition, and is suitable for use on electrical systems. The creation of an isolation cover makes it easier to start the engine, notably during periods of high air humidity.

1	EDI300	Blue Star De-icer	300ml	5010373017586	12

*for Eastern European Countries only

Pre-icer ②

When applied before frost occurs, Pre-icer prevents ice from bonding to glass surfaces. It allows loose 'needles' of ice to form and can be easily removed by use of winter screen brush or windscreen wipers, removing the need for vigorous rubbing.

Premium Red Anti-Freeze ⑨

Premium Red Anti-Freeze is a concentrated formula of the highest quality. Red colour antifreeze is compatible with new standards and carries five years protection. To be diluted with water 1:1, this product protects down to -37°C.

Silikon Spray ⑤

Silikon Spray is designed specifically for use during the winter months. This non-staining formula preserves rubber seals and protects against the freezing of doors to the frame of the car.

Blue Star Anti-Freeze ⑧

Blue Star Anti-Freeze is a concentrated formula of excellent quality. It works in line with new standards and carries two years protection. To be diluted with water 1:1, this product protects down to -36°C.

MOTOR OIL

1 15W40 Mineral

15W40 Mineral is a high quality, multi seasonal oil suitable for use in the most modern petrol engines, including naturally aspirated and turbo-charged vehicles with multi-valves, fuel injection and twin-cams. Also suitable for light duty diesel applications. Specification: API SL/CF; ACEAA3,B3,B4.

2 15W40 Diesel Mineral

15W40 Diesel Mineral is suitable for most turbo-charged or super-charged high performance diesel engines operating under low speed/high load and high speed/low load conditions. It is also suitable for naturally aspirated diesel and petrol engines requiring performances up to and including API SL. Specification: API CH-4/SL; ACEA B3, B4, E3, E5, E7, A3; MB228.3, 229.1, Volvo VDS-2, VW505.00, MAN M3275, MACK EOM+, CUMMINS 20076/20077.

3 10W40 Mineral

10W40 Mineral is suitable for use with most turbo-charged diesel and petrol engines, as well as with multi-valve, fuel injected and multi-cam engines. Specification: API SL/CF; ACEA A2,B2.

4 10W30 Mineral

10W30 Mineral is suitable for most modern high-speed high-output passenger car and light commercial engines that require petrol or diesel, including multi-valve, lean burn, fuel injection and turbocharged models. This viscosity grade is also suitable for Ford Zetec engines. Specification: API SL/CF; ACEA A2,B2.

5 5W40 Fully Synthetic

5W40 Fully Synthetic is suitable for modern, high performance petrol engines that require the highest standard in performance and lubrication. For passenger cars and light trucks, this oil is supercharged and naturally aspirated in order to help keep engines clean and prolong the engine life. Specification: API SL/CF; ACEA A3,B3.

6 10W40 Semi-Synthetic

10W40 Semi-Synthetic oil has been specifically designed for use with most turbo-charged diesel/petrol engines, as well as multi-valve, fuel injected and multi-cam engines. Specification: API SL/CF; ACEA A3,B3.

7 5W30 Semi-Synthetic

5W30 Semi-Synthetic oil is notably suitable for higher mileage Ford Zetec petrol and diesel engines and Duratorq diesel engines. Specification: API SL/CF; ACEA A1, B1; Ford M2C-913A/B.

8 15W40 Diesel Semi-Synthetic

An SHPD class oil designed for use in modern, turbocharged and naturally aspirated petrol and diesel engines, especially those operating under the most vigorous of conditions. Specification: API CH-4/SL; ACEA B3, B4, E3, E5, E7 / A3.

9 10W40 Turbo Diesel Semi-Synthetic

10W40 Turbo Diesel Semi-Synthetic is designed for use in most turbo-charged diesel/petrol modern engines, as well as in multi-valve, fuel injected and multi-cam engines. Performance Level: API CF/SL; ACEA B3, B4, A3.

Products are also available in 25 and 199 litre containers. All oils consist of a successful blend of elements that provide a high standard of quality oils that offer fantastic performance levels. Always refer to the vehicle manufacturer's handbook to ensure that the product is suitable for use in your vehicle.

Carlube

10w40 Semi-Synthetic ⁶

10w40 is specifically designed for use with most turbo-charged diesel/petrol engines, as well as multi-valve, fuel injected and multi-cam engines. Performance Level: API SM/CF; ACEA A3, B3, B4; VW500.00, 505.00, MB229.1.

0w30 Longlife Fully Synthetic ⁸

0W30 Longlife Fully Synthetic has been specifically developed for use in modern vehicles, notably high-performance, turbo-charged, super-charged, petrol and diesel multi-valve injected engines in passenger cars and light commercial vehicles. Provides improved fuel economy and reduced emissions. Specification: API SL/CF; ACEA A3, B3, B4; VW502.00, 505.00, MB229.3, BMW Longlife.

5w40 Fully Synthetic ⁹

5w40 Fully Synthetic is the ultimate synthetic engine oil designed for use in high performance passenger car engines, offering full engine protection, even in the most severe conditions.

Specification: API SM/CF; ACEA A3, B3, B4; VW502.00, 505.00, MB229.3, Porche, BMW.

5w30 Fully Synthetic FORD ⁷

A fully synthetic, low SAPS oil suitable for the latest Ford petrol and diesel engines: Ford Mondeo, C-Max, Focus, Fiesta and Transit. The product is also compatible with older Ford engines where the Ford M2C913-A/B specifications are demanded.

Specification: API SL/CF; ACEAA5, B5; Ford M2C-913C

5w40 PD Diesel Fully Synthetic ¹¹

5w40 PD Diesel Fully Synthetic is a high quality oil designed for use in the latest Diesel engines fitted with DPF to meet Euro IV Emissions requirements. Volkswagen, Audi, Seat and Skoda TDI direct injection fitted with pump injectors - Pumpe Duse (PD) engine and VW505.01 spec. Specification: API CF/SM; ACEA B3, B4, C3, A3; VW502.00, 505.00, 505.01 [PD], BMW LL04, Ford M2C-917-A, MB 229.31, Porsche.

15w40 Semi-Synthetic SHPD Low SAPS ¹³

15w40 is an engine oil specifically designed for use in new turbo-charged and naturally aspirated heavy-duty diesel engines. It has been manufactured to meet Euro V emissions requirements. Specification: API CJ-4/SM; ACEA E7,E9; MAN M 3275, MACK EO-N & EO-O, CUMMINS 20081, DETROIT DIESEL 93K218, VOLVO VDS-3 & VDS-4, MB 228.31, CAT ECF-2 & ECF-3, RENAULT RLD-3.

10w40 Diesel Fully Synthetic UHPD Low SAPS ¹²

10W40 is an ultra high performance diesel, low SAPS engine oil meeting excellent standards. It can be used in vehicles fitted with DPF's and works notably well in Mercedes Benz cars.

Specification: ACEA E4, E6, E7; Renault RLD/RXD, MB 228.51, Volvo VDS-3, DAF Extended Drain, MTU Type 3.1, MAN 3277/3477.

Products are also available in 25 and 199 litre containers.

All oils consist of a successful blend of elements that provide a high standard of quality oils that offer fantastic performance levels. Always refer to the vehicle manufacturer's handbook to ensure that the product is suitable for use in your vehicle.

5w30 Longlife GM Fully Synthetic (1)

A fully synthetic oil designed specifically for the General Motors group, petrol and diesel engines on extended drain intervals. Also suitable for other engines that belong to the below listed performance level.

Specification: API SM/CF; ACEAA3, B3, B4; GM-LL-A-025, GM-LL-B-025, BMW LL01, MB 229.3, VW 502.00/505.00.

5w30 Longlife VW Fully Synthetic (10)

5w30 Longlife VW is a fully synthetic, low-saps oil suitable for use in VW Group vehicles on extended drain service regimes. Particularly effective in modern Diesel engines fitted with DPF.

Specification: API SM/CF; ACEAA3, B3, B4, C3; VW 504.00/507.00

5w30 Longlife C3 Fully Synthetic (2)

5W-30 Longlife C3 is a fully synthetic, low-saps oil for Diesel and Petrol engines and in particular for BMW, Mercedes-Benz, Vauxhall & Chevrolet diesel cars and light vans on extended service intervals. Particularly for latest Diesel engines fitted with DPF to meet Euro IV Emissions requirements.

Specification: API SM/CF; ACEA C3; BMWLL04, MB229.51, GM GEOS B/DEXOS II

5w30 Longlife C2 Fully Synthetic (4)

5w30 Longlife C2 Fully Synthetic is an economically efficient, mid-SAPS oil suitable for use in diesel and petrol engines, and particularly those vehicles fitted with DPF, notably: Citroen, Peugeot, Volvo, Land Rover and Honda cars.

Specification: API SM/CF; ACEAA1, A5, B1, B5, C2.

5w30 Longlife C1 Fully Synthetic (3)

5w30 Longlife C1 Fully Synthetic provides improved fuel economy, low-saps and a high C1 specification oil for diesel and petrol engines. Most suitable for vehicles fitted with DPF, especially Mazda and Ford cars. Specification: API SM/CF; ACEA A5, B5, C1 JASO DL-1.

5w30 Longlife C4 Fully Synthetic (5)

5w30 Longlife C4 Fully Synthetic offers improved fuel economy, low-saps and a high C4 specification oil for diesel and petrol engines. Most successful in vehicles fitted with DPF, notably Renault cars. Specification: API SM/CF; ACEA A3, B3, B4, C4; Renault RN0720.

Products are also available in 25 and 199 litre containers.
 All oils consist of a successful blend of elements that provide a high standard of quality oils that offer fantastic performance levels.
 Always refer to the vehicle manufacturer's handbook to ensure that the product is suitable for use in your vehicle.

FUEL & OIL ADDITIVES

Petrol Treatment ¹
 Petrol Treatment is specially formulated to ensure the maximum efficiency and purity of fuel systems in petrol injected and carburetor engines. The treatment prevents deposits from forming. This in turn assures the correct injection pattern and accurate working of the carburetor, valve seats and spark plugs.

Injector Cleaner ² Diesel Injector Cleaner ^{2 3}

Injector Cleaner / Diesel Injector Cleaner renews the original fuel system efficiency by removing existing deposits from injector endings, carburettor nozzles, valve seats and spark plugs. Additionally, these cleaners increase performance and acceleration capacity whilst reducing fuel consumption. Suitable for both petrol and diesel engines.

Diesel Treatment ⁴
 Diesel Treatment ensures the maximum efficiency of fuel systems in all types of diesel engine, including turbo-charged. Treatment prevents deposits from forming, assuring a correct injection pattern and accurate working of the valve seats.

Diesel Clean-burn ⁵
 Diesel Clean-burn is a high quality, quick acting, diesel fuel additive that eliminates black exhaust smoke by improving combustion efficiency.

Lead Substitute ⁶
 Lead Substitute has been specifically formulated for engines originally designed to operate with leaded 4-star petrol. Not only protecting valve seats against damage when used in conjunction with unleaded fuel, it helps to maintain performance whilst stabilising exhaust emission output.

Oil Treatment ⁹
 Oil Treatment protects and extends the efficiency of Petrol, Diesel and LPG engines with or without turbo chargers. It Improves the engine's compressions whilst reducing oil use and gas emissions. Compatible with all mineral and synthetic oils. Harmless to catalytic converters.

Nitrox Diesel Boost ¹⁰
 Nitrox Diesel Boost is designed to improve and maximise performance in diesel engines by increasing the diesel fuel cetane number in order to enable the engine to withstand higher pressures. Additionally, Nitrox Diesel Boost cleans the injector endings and combustion chamber.

Nitrox Octane Boost ¹¹
 Nitrox Octane Boost is specially designed to maximise the performance of petrol engine vehicles by increasing the octane level of fuel as well as cleaning the fuel injectors and combustion chambers.

Engine Flush ⁷
 Engine Flush quickly and efficiently removes black sludge and deposits from the interior of diesel and petrol car engines in order to eliminate rapid deterioration of the new oil and the engine work.

Stop Smoke ⁸
 Stop Smoke has been specially formulated to reduce visible blue smoke and oil consumption by helping to eliminate interior engine oil leaks to the combustion chamber. It works by sealing leakages between cylinder walls, piston rings and valve seats in high mileage vehicles.

Radiator Flush ¹²
 Radiator Flush increases the cooling system efficiency by dissolving rust and other sediments created during high temperature activity at cooling engine canals. It protects against jams in the cooling system that have been a known cause of engines overheating. It can be used in all cooling systems, including aluminium structures, and eliminates acid activity, and subsequently system corrosion.

Radiator Sealer ¹³
 Added to the car cooling system, Radiator Sealer quickly repairs micro leaks and stays active in order to seal future leakages. Contains corrosion inhibitors and is not harmful to radiators, gaskets and rubber hoses. It can also be used with all types of anti-freeze.

Copper Grease ¹

Copper Grease is a high performance lead-free anti-seize compound designed for application to threads of nuts and bolts prior to assembly in order to ensure easy release without damage, even after long periods in adverse conditions. The complex blend of heat resistant solids and low shear metals creates the much needed high melting point with the purpose of providing a protective coating that will not wash or burn off. It prevents galling and seizure even when faced with extreme temperatures that would destroy other lubricants. Providing excellent corrosion resistance, it is ideal for use on: battery terminals, exhaust clamps, spark plug threads, wheel studs, injector sleeves and flanges, and brackets. Helps prevent disc break reverberation if applied to back of disc pads.

100+ Spray Grease ²

100+ Spray Grease is a penetrating, multi-purpose semi-fluid aerosol grease designed for the lubrication and protection of those crucial moving parts. Ideal for lubricating chains, linkages, hinges and metal elements requiring greasing and anti-corrosion protection. The high resistance to 'Throw Off' makes it especially suitable for motorcycle and cycle chains.

EP80w Hypoid gear oil ³

EP80w is a manual transmission fluid specifically designed to lubricate spur and helical gears, where the GL-5 specification is too high for the particular gearbox and could lead to clogging, and where the manufacturer specifies use of an extreme pressure lubricant. Specification: API GL-4

EP90w Hypoid gear oil ⁴

EP90w is a high quality, automotive gear oil recommended for use in commercial vehicles, passenger cars, construction equipment transmissions, spiral bevel and hypoid drive axles. Specification: API GL-5

EP80w90 Hypoid gear oil ⁵

EP80w90 is a heavy duty gear lubricant with large load carrying capabilities and good resistance to shock loading. Specially produced from a blend of refined base oils and sulfur-phosphorus, high pressure additives. Specification: API GL-5

EP75w90 Hypoid gear oil ^{6,7}

EP75w90 Hypoid gear oil has been developed to provide superior protection under the severest of operating conditions in both passenger cars and commercial vehicles in extremely low and high temperatures. Recommended for modern 5 speed manual transmissions, the stable viscosity provides constantly smooth gear change. Specification: API GL-5

EP75w90 Hypoid gear oil Fully Synthetic ⁸

New generation manual gear oil developed for use in manual ZF gearboxes. It offers the highest gearbox protection for all driving conditions, in both commercial and passenger vehicles. It is also suitable for use in most synchromesh gearboxes and final drive units, including limited slip differentials. Also covers a number of viscosities, including the 75w80, 75w85 and 80w90 commonly specified grades. Specifications: API GL-4, API GL-5, ZF TE ML05A, Scania ST01:0

ATF-Q Automatic transmission fluid ⁹

ATF-Q Transmission fluid is designed to provide a high quality of frictional properties, oxidation resistance and anti-wear performance. Ideal for use in automatic transmissions, power steering units, hydraulic systems and fluid drive gearboxes that specify GM Dexron II fluid. Specification: Dexron™ II

ATF-Q3 Automatic transmission fluid ¹⁰

ATF-Q3 Transmission fluid is a high quality automatic gearbox, transmission and power steering fluid, carefully blended to satisfy relentlessly low temperature and frictional requirements. Recommended for use in passenger cars, coaches and off-highway construction equipment. Encompasses all the specifications of Dexron II D, Dexron III, Dexron II E and the new Ford specifications of Mercon, M2C-166H and M2C-195A. Specification: Dexron™ III

ATF-U Automatic transmission fluid ¹¹

ATF-U Transmission fluid is a universal, automatic transmission solution of a superb quality. Having been carefully blended from synthetic base stocks and specially balanced additives, it satisfies the stringent low temperature and frictional requirements of a wide range of specifications. Specifications: Ford Mercon V / Mercon SP; Texaco N402; Ford M2C-202-B; GM Dexron VI; Chrysler ATF/ATF 3+/ATF 4+; Toyota T-II/IV/WS; Honda Z-1 (Except CVT); Mitsubishi/Hyundai SP II/III; Nissan Matic D/J; JWS 3309; BMW 7045E; MB 236.6/236.7/236.9/236.10; VW/Audi G-055-025-AZ; Volvo 1161540; LT 71141; Subaru ATF.
